

## Scrappy Disappearing 9-Patch Quilt

Initial Fabric Square Size	Finished Quilt Size	Number of "A" (Center) Squares Needed	Number of "B" Squares needed	Unfinished Block Size	Block Settings (using finished block)
6"	48" X 64"	12	96	8 ½"	6 X 8
6"	64" X 80"	20	160	8 ½"	8 X 10
6 ½"	52 ½" X 70"	12	96	9 ¼"	6 X 8
6 ½"	70" X 87½"	20	160	9 ¼"	8 X 10

**Cut:**    **A: 12 (or 20) – squares (all the same color—preferably from one fabric—for centers of blocks)**"

**B: 96 (or 160) – squares (scrap fabrics—color coordinated or miscellaneous – avoid using the same color as the 12 (or 20) center squares listed above so that those squares stand out as unique)**

<p><b>Step 1:</b> Using <u>one square A</u> as the center, assemble a 9-patch block using "B" blocks in any order you choose. Random is best when using scrap fabrics. This block may not look "pretty" at this point, but that's ok!</p> <p>Make a total of <b>12</b> (or <b>20</b> if making larger sized quilt) blocks. Press carefully.</p>	 <div style="border: 1px solid black; padding: 5px; margin-top: 10px; width: fit-content;"> <p><b>Red is the common block in this example. All the other blocks will have a red center.</b></p> </div>
<p><b>Step 2:</b> Measuring carefully, cut each of the blocks made in Step 1, first in half, then in quarters. You will now have a total of 48 (or 80) new blocks.</p>	

**Step 3:** Arrange new blocks as desired and sew in rows with 6 blocks across and 8 rows down (or 8 X 10 for larger quilt). Depending upon how you turn the blocks, the cornerstones made from the center blocks of the 9-patch will yield several different quilt top designs.

**If you have any leftover completed blocks or fabrics, please return them to the Comfort Quilt Coordinator.**
